

## Adele - Hello

                  Em G          D C  
Hello, it's me  
          Em                  G                  D  
I was wondering if after all these years  
                  C                  Em G          D C  
You'd like to meet, to go over everything  
                  Em                  G  
They say that time's supposed to heal ya  
                  D                  C  
But I ain't done much healing

Hello, can you hear me?  
I'm in California dreaming about who we used to be  
When we were younger and free  
I've forgotten how it felt before the world fell at our feet

                  Em D          Bm C  
**There's such a difference between us**  
          Em D C  
**And a million miles**  
Em                  C                  G D  
**Hello from the other side**  
          Em                  C                  G D  
**I must've called a thousand times**  
          Em                  C                  G                  D  
**To tell you I'm sorry, for everything that I've done**  
          Em                  C                  G                  D  
**But when I call you never seem to be home**  
Em                  C                  G D  
**Hello from the outside**  
          Em                  C                  G D  
**At least I can say that I've tried**  
          Em                  C                  G                  D  
**To tell you I'm sorry, for breaking your heart**  
                  Em                  C                  G                  D                  Em G D C  
**But it don't matter, it clearly doesn't tear you apart anymore**

Hello, how are you?  
It's so typical of me to talk about myself, I'm sorry  
I hope that you're well  
Did you ever make it out of that town where nothing ever happened?

### Pre-Chorus

          Em D                  Bm C                  Em D          C  
It's no secret that the both of us are running out of time

### Chorus:

D G          Em C  
Ooooohh, anymore x3  
          D G  
Anymore

### Chorus:
